WORKING TRANSFORMING SUCCEEDING

Fact: Since 1976, ICI has been manufacturing products inside Illinois correctional centers to help offenders employed by ICI learn marketable job skills and valuable work ethics required to gain employment upon release. Every offender who gains employment and does not return to prison reduces the recidivism rate for Illinois and the tax burden placed on its citizens to house, clothe and feed incarcerated offenders.

ICI provides goods and services to state agencies, schools, universities, park districts, county jails, townships and municipalities.
